

***“Rhenium-SCT<sup>®</sup> the future  
of treating Non-melanoma  
skin cancer – A new liaison  
between Nuclear Medicine  
and Dermatology”***

Satelite Symnposia (Hall 212)

1:15-2:15pm, Sunday 16th October

- ✓ **Non-melanoma skin cancer and the potential of using rhenium-188 for treatment**
- ✓ **Presentation of study results from the Rostock Trial**
- ✓ **Practical Demonstration of Rhenium-SCT<sup>®</sup>**
- ✓ **Radiation protection in case of high energy beta emitter rhenium-188**

## **Presentations by:**

**Dr. Martin Heuschkel**

University Clinic of Rostock,  
Department of Nuclear Medicine

**Dr. Jens Kurth**

University Clinic of Rostock,  
Medical physics expert

**Prof. Julia Tietze**

University Clinic of Rostock,  
Department of Dermatology

**ONCOBETA<sup>®</sup>**  
epidermal radioisotope therapy
